Photoduplication Service - https://familysearch.org/learn/wiki/en/Photoduplication_Services

Family Search has had a Photoduplication service for many years, allowing anyone to obtain a photocopy of any record they have on microfilm for \$2 if you know the microfilm number, name, date etc. of the record. Now they have changed this to an e-mail system and it is free. You can order up to 5 records a week for free through e-mail, they send you a link to an online file storage site where you download a zip file with your images at no charge. You have to include in your e-mail your name and address along with the type of record, LDS film numbers (obtained from their online catalog <https://familysearch.org/catalog-search>), name of person on record, record number and date of record. This works well for NYC births, deaths and marriages indexed on ItalianGen or any record where you know enough information to find the right microfilm. Some of the copies are a little blurry and dark, but you can't beat the price and all the records are legible.
