

The Basics of Research in Israel

The majority of websites mentioned in the lecture can be found on the website of the Israel Genealogy Research Association (IGRA) – www.genealogy.org.il

The list on the website has far more than could be mentioned in the lecture and it is worth going through them to see if some of the places may hold information that could be relevant to your family research. The list is alphabetical. Some of the categories are: Archives, Burial Societies/Cemeteries, Census records, Libraries, Museums, Soldiers, State Offices and Universities.
